Royal Baking Powder

Imparts Healthfulness the Food

Royal Baking Powder possesses peculiar qualities not found in other leavening agents, which arise from the superior fitness, purity and healthfulness of its ingredients.

Royal Baking Powder leavens the food perfectly by its own inherent power without changing or impairing any of the elements of the flour.

Thus the hot-breads, hot-rolls and muffins, and the delicious hot griddle-cakes raised by the Royal Baking Powder are wholesome and digestible, and may be eaten without distress, even by persons of delicate digestion.

Alum baking powders are low priced, as alum costs but two cents a pound; but alum is a corrosive poison and it renders the baking powder dangerous to use in food.

ROYAL BAKING POWDER CO., NEW YORK

The wonderful advance made in the science of farming during the last few smoking; only, if they do smoke, they spring chickens is a liberal price, yet years is one of the best examples of should smoke seriously. Most of them a American progressiveness. A little in-cident recounted by the Ashtabula (Ohio) Sentinel is characteristic. One at all. If they really mean it, let weeks old, and it is said that two evening, a short time ago, a society in them take to cigars and pipes. I know chickens born from a single egg have Jefferson needed a gallon of cream. a dignified old lady, a Polish countess never before been proved to live beyond The committee called up by telephone -what is her name?-oh, well, Thing- eight days. The buff brahma hen laid the proprietors of a milk farm two amojisky—it ends in "isky," anyhow rather a large egg, but no one thought miles north of the town, and asked if —and I respect that woman. She gen—much about it until one morning the they could furnish it. The reply was uinely smokes, and no mistake about farmer saw two bills instead of that they could as soon as milking was it. There is no playing there. She trying to break out of the shell. He done. In 30 minutes from the time the looks on it as a sacred duty. She has quickly removed the egg to the kitchen. call was made, the cream was deliv-ered. The milk had been drawn from the bark on, and a fine big bowl—a them in cotton batting and placed them the cow, put into a separator, the regular man's pipe. When she was in the oven. For three weeks the cream extracted and sent to town by a visiting me, she just loaded up and chickens were kept in doors on a diet of man on a bicycle. A few years ago the committee would have had to send and loaded up and smoked, and loaded up and smoked, she down their throats with a medicine a boy in the afternoon. "yesterday's meant business. I know another lady milk," would have had to be skimmed, who has a long Turkish pipe, and she, and if the boy had not treed too many too, means business. If women are chipmuncks on the way, he might ever to be genuine smokers, that is the One peculiarity, however, distinguishes

HOW TO TRAVEL.

Information for the Public. In selecting your route to the East vantages and comforts offered by the Rio Grande Western Railway in conection with the Denver & Rio Grande and Colorado Midland railroads. It is the only transcontinental line passing directly through Salt Lake City, and in addition to the glimpse it affords of the Temple city, the Great Salt Lake, the salt palace, and the picturesque Utah valley, it offers choice of six distinct routes to the East and the most magnificent scenery in the world. A double daily train service and through Rock Island personally conducted excars, free reclining chair cars and a perfect dining car service are now in operation via these lines.

For pamphlets descriptive of the "Great Salt Lake Route," apply to J. D. Mansfield, general agent, 258 Washington street, Portland, Or.

The assessors of Montreal are having no little discussion with the street railway company, the Bell Telephone Company and other large companies, as to the machinery tax. The street railway company has now, through its lawyer, informed the assessors, that it does not consider any tax can be legally placed upon its poles, rails, etc.

\$100 REWARD \$100.

The readers of this paper will be pleased to sarn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its cursiive powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address P. J. CHENEY & CO., Toledo, O. Sold by druggists, 75c. Hall's Family Pills are the best.

Sconer Than Usual This Year-

that winter has come to stay, and esrivers, says the Alaskan. The weather from Le Barge northward has been much below zero for a week past, and since then telegraph information was to the effect that the thermometer was 18 grown less embarrassed, stocks have gradually advanced, industries are still gradually advanced, industries are still by a volume of demand for Le Barge, and 22 degrees below at

out of tributary rivers, and it would not be surprising if the Yukon should block with ice soon after the 27 inst. To all appearance a moderation of the weather is the only thing in human reason to prevent the river from closing a full week earlier than is did last year.

A gentleman who is pretty well ex-perienced in Klondike navigation says that the chances are very good for catching fully 100 scows in the ice when the Yukon closes. This is a high

It is well known that a number of scows left Bennett with the expectation of wintering this side of Dawson, and some scows will yet leave Bennett with the intention of waiting for spring

wrecked in White Horse rapids lately, but four of them were rescued. Mr. Robinson had life in his body when brought to shore, and J. T. Bethune triedevery means to resuscitate him, but his efforts were in vain, and the cold water or internal injuries proved It turns out that the steamboat

Lindeman may not be a total loss. At Windy Arm the owners of the Lindeman saved the cargo of a Dawson-ite's wrecked scow, for which they will get \$3,000 salvage, so they are ahead on disasters, as the total cost to them of the Lindeman was only \$1,600, although she originally cost \$6,000.

Hon. C. W. D. Clifford is satisfied with the Atlin ountry as a mining district, but he asys it is not a great producer. He thinks valuable quatra will country on the whole no poor-man He says further to the Alaskan: "From what I can learn of the banks of Atlin the output in placer this year will be from \$750,000 to \$1,000;000.

claims, purchased not long ago by Lord Hamilton, are being developed by a small crew. A day and night shift is at work, and already the men have tunneled 30 to 40 feet and the prospects get better the farther they go.

'The alien exclusion law discouraged the investment of capital in Atlin this placers. The exclusion law has proved a boomerang. I have been opposed to it and shall stand for its repeal." Todd Lees, en route from Atlin to

Vancouver, says that he has reliable information that up till October 15, royalty paid on the Atlin placer output for the season amounted to \$410,-000, and it was estimated in official

General mining along the creeks will continue three weeks more, says Mr. Lees, and after that drifting will be done to some extent on some of the creeks through the winter. He esti-

This is the closed seson for trout under the new law. There is some dis-agreement as to whether the fish popularly known as the salmon trout should be called a trout, says the Portland Telegram.

Many persons, particularly those who like to fish for them in the winter time, insist that the salmon trout is a young steelhead, and that fishermen are opposed to them because they eat eggs which chinook salmon have deposited. It will be left for the courts to decide this mooted question, over which learned doctors disagree, and most people believe that they will decide it in the matter of fact way and call the salmon trout a trout.

This species is the only kind of trout that will bite in the winter time, and many Portland sportsmen have been accustomed to fishing for them all winter long. They are gamey, and the meat is of excellent flavor, and the fish form a good change of diet during the winter time.

Improving Juneau Wharf. The city wharf at Juneau has undergone wonderful changes during the past 10 days, and the Pacific Coast Company, which owns a net work of wharves along the water front, has now started in earnest to construct its mammoth bunkers with a capacity of 2,000 tons of coal. This is a \$10,000 improvement. The old warehouse has been cut in two, and one-half now presents a broadside to the incoming steamers, leaving a large dockyard between it and the other section. The new bunkers will be directly to the south and the piledriver crew is now at work putting in torredo-proof piles, which come directly from Puget sound. These piles are covered with tar and wrapped in heavy canvass, and by this means are insured against the ravages of the torredo.

Locations for New Salmon Hatcheries. One of the prime objects of the recent trip of Fish Commissioner Reed along the coast of Oregon was to find locations for new hatcheries. He succeeded in determining upon but one site The one decided on is on Coos bay, or rather on the south fork of Coos river, above the head of tide water.

Forty-Mile Victim. W. M. Johnson, who has just returned from a trip to Jack Wade creek, reports the drowning of Henry Hornung n the waters of Forty-Mile river on the
